

REAL-TIME GLUCOSE TRENDS. DESIGNED FOR DAILY LIFE.

LinX CGM Smart

A compact, app-connected continuous glucose monitor with a 15-day wear cycle, smart alerts and discreet everyday comfort.

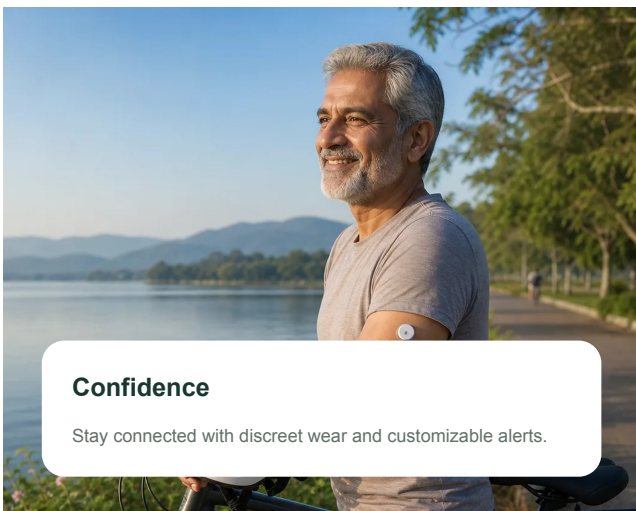

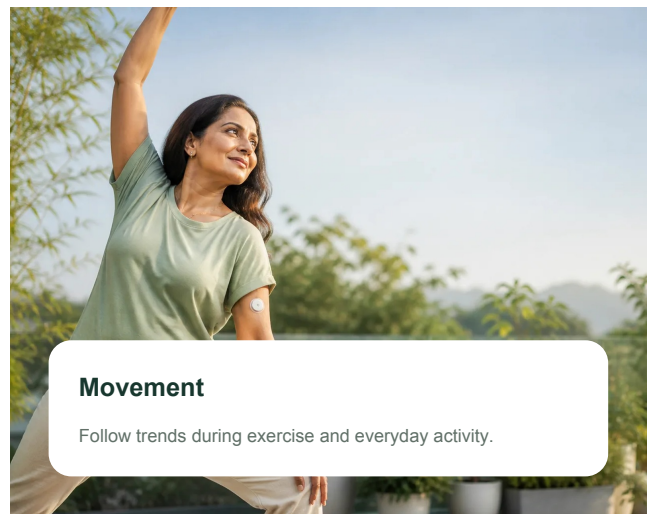

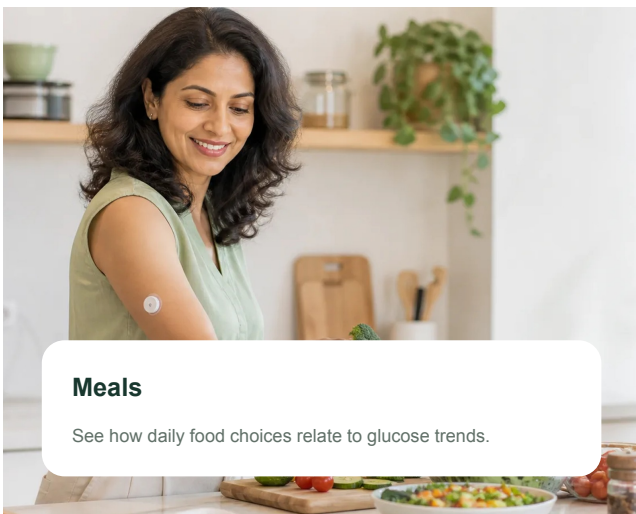

15-day wear

IP68 rated

Bluetooth enabled

Glucose visibility that fits your day

LinX continuously sends glucose trend data to a compatible smartphone, helping users understand patterns across meals, movement and rest.

Comfortable wear

Flexible placement on the upper arm or abdomen, following the product instructions and clinician guidance.

No routine scanning

Bluetooth-enabled data transfer to the compatible LinX CGM Smart App - no NFC scan required.

Designed for real life

Compact form, 15-day wear cycle and IP68-rated water resistance for daily routines.

From sensor to useful trends

The compact sensor measures glucose in interstitial fluid and sends trend information by Bluetooth to the compatible mobile app.

1

Apply

Use the one-push applicator according to the supplied instructions.

2

Connect

Pair with the LinX CGM Smart App on a compatible phone.

3

Follow

Review real-time trends, alerts and history throughout the wear cycle.

App highlights: real-time monitoring, customizable glucose alerts, trend history and data sharing with caregivers or family members.
